

AFFORDABLE LONE WORKER SAFETY MONITORING

Are you affected by work alone regulations and want to be certain your lone workers are safe? Do you also want to minimize your costs and the time it takes to monitor their safety? If that sounds about right, Ok Alone was designed just for you.

Features Customers Like Best

- ★ **Man-down Protection** - if you stop moving and can't respond, Ok Alone triggers an alarm
- ★ **High Risk Check-ins** - rapidly adapt to changing situations by pulling in your next check-in time
- ★ **Hands Free Voice Commands** - use Siri, Google Assistant or Alexa voice commands to check-in, send for help and more
- ★ **Panic Button Alarm** - with a single button, instantly send to help
- ★ **GPS Location** - know where your team is, even when they are on the move

Minimize Your Work Alone Costs

Don't spend any more than you have to on your work alone safety monitoring. Ok Alone gives you everything you need, at a lower cost than any similar system.

Complete packages for up to five workers start at just

\$5 per person per month
